# CAPABILITY STATEMENT

TALISKER  
CRUSHING AND SCREENING

## ABOUT US

W.A Owned and operated we offer end to end crushing and screening services, whether wet or dry hire of equipment, specialist labour-hire, or aggregate and sand supply. We're big enough to deliver your needs but still small enough to be flexible to suit them. With our highly experienced team across all aspects of crushing and screening from mobile to fixed, you can be sure that you will get the best result possible.

# SERVICES

The background of the page is a grayscale photograph of a quarry or construction site. A large conveyor belt system is visible, with a truck positioned at the end of it. The sky is filled with clouds. The text is overlaid on a semi-transparent dark gray box on the left side of the image.

We offer a wide range of specialist services in our industry including:

## **Complete Contract Crushing & Screening**

Utilising 2 and 3 stage crushing circuits some of our previous scopes have included

- Ore Crushing
- Rail Ballast
- Stemming
- Roadbase
- Amour rock
- Roadbase
- Aggregates
- Scats crushing

## **Wet and Dry Hire**

Machines for both short and long term work. Our team of experienced tradesman and crusher personnel can also be hired to operate and maintain your equipment.

## **Aggregate and Sand Supply**

We can source and supply all aggregates and sand products throughout WA from one of our many sites Utilising the robust network we can also provide transport as per client requirements.

**"We find solutions, to achieve your outcomes safely and efficiently."**

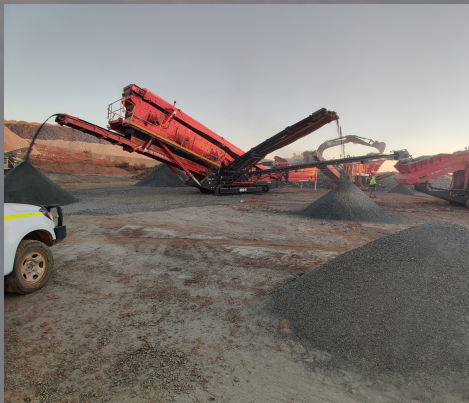

# EQUIPMENT

We have a wide range of modern work ready machines available for both wet and dry hire including:

## CURRENT PROJECTS

With experience across the industry we have worked with a wide range of commodities. See below for some of our most recent projects.

**Client :** Pilbara Resource Group C4

**Resource:** Iron Ore  
Currently crushing High-Grade Lump and fines DSO material for a period of 6 months at 120,000t per month. Helping PRG to reach their target of two shipments per month.

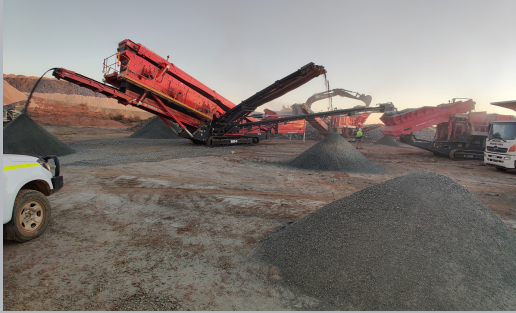

**Client :** SMS Mining Blue Hills

**Resource:** Iron Ore  
Currently crushing lump and fine products as part of a 3,000,000t scope over 14 months. With a plant capacity of over 500tph.

# PREVIOUS PROJECTS

**Client :** Adaman Resources

**Resource:** Gold Ore

Over a period of 6 months we provided primary, secondary and tertiary crushing solutions. As well as the operation of a flexible scats crushing solution of more than 40,000t per month.

**Client :** Adaman Resources

**Resource:** Blast Stemmings

As part of our ongoing crushing services agreement we are currently crushing in excess of 20,000t per year for the next three years to ensure the growing need for stemmings are met.

**Client :** Adaman Resources

**Resource:** Gold Scats

We were able to assist Adaman in recovery of gold from their laterite scats stockpile of 40,000t utilising a customized system to remove tramp iron and crush and screen the product down to 10mm.

**Client :** SMS Mining

**Resource:** Blast Stemmings

Continuing our positive relationship with SMS we produced in excess of 15,000t of both blast stemmings and crusher dust for their Kirkalocka and Bald Hill sites.
